HISTORIC DEMAND AND NEW SPACE DELIVERED (SF)

MARKET ACTIVITY

Gross Absorption: No physically existing space was absorbed during the quarter.

Availability: Increased to 783K SF, due to 260K SF of available space delivered.

Market Size: Slightly decreased to 13.5M SF, given that:

- A building of 390K SF was demolished.
- A building of 260K SF was delivered, counteracting the decrease.

MARKET LEVERAGE

Tenants currently have more leverage, given the high vacancy rate and low demand.

MAIN INDICATORS LEVEL 1 (SF) Previous Quarter Difference

lability are based on existing buildings, excluding under construction | No warranty or representation, express or implied, is made as to the accuracy of the information.

LEVEL 1 GLOSSARY

Market Size

The combined size, stated in square feet, of all the industrial buildings, distribution centers and warehouses that physically exist in the market for this quarter.

Availability

The combined size, stated in square feet, of all the industrial buildings, distribution centers and warehouses that physically exist and are currently available in the market for this quarter.

Vacancy

The percentage of all existing space currently available in relation to the total size of the market.

Gross Absorption

All physically existing space that was newly occupied by a tenant or buyer during the quarter; the sum of existing space leased (or acquired) and buildings that finished construction and are newly occupied by a tenant upon delivery (BTS and pre-leased Spec.).

Net Absorption

The resulting subtraction of all physically existing space newly occupied during the quarter minus the space that has become available during the period; Gross Absorption minus Vacated space and Delivered & Available Spec.

Avg. Lease Rate

The monthly lease rate per square foot that, on average, the owners of all available buildings are requesting.
